## INTRODUCE

I am a Frontend developer with over 5 years of expertise in developing user interfaces using HTML, CSS, JavaScript, CMS, and am currently transforming myself into a comprehensive MERN Stack Developer. With a passion for developing modern web applications, I not only master the frontend but also expand my skills to the backend with Node.js, Express.js, and MongoDB, Reactjs, Nextjs. Always focusing on performance, security, and user experience, I aspire to bring breakthrough technology solutions that are both optimized and scalable.
